

# Activities\* in urban areas

An urban activity is one where the bulk of the activity takes place within a short distance of a road or footpath and there is mobile coverage at all times. Should an incident or accident occur it would be possible to contact emergency services by phone.

Ensure that all activity participants complete the Activity Register form, providing details of their emergency contacts.

Provide a copy of the activity register form to the walks committee in an electronic format as soon as is practicable after the end of the activity

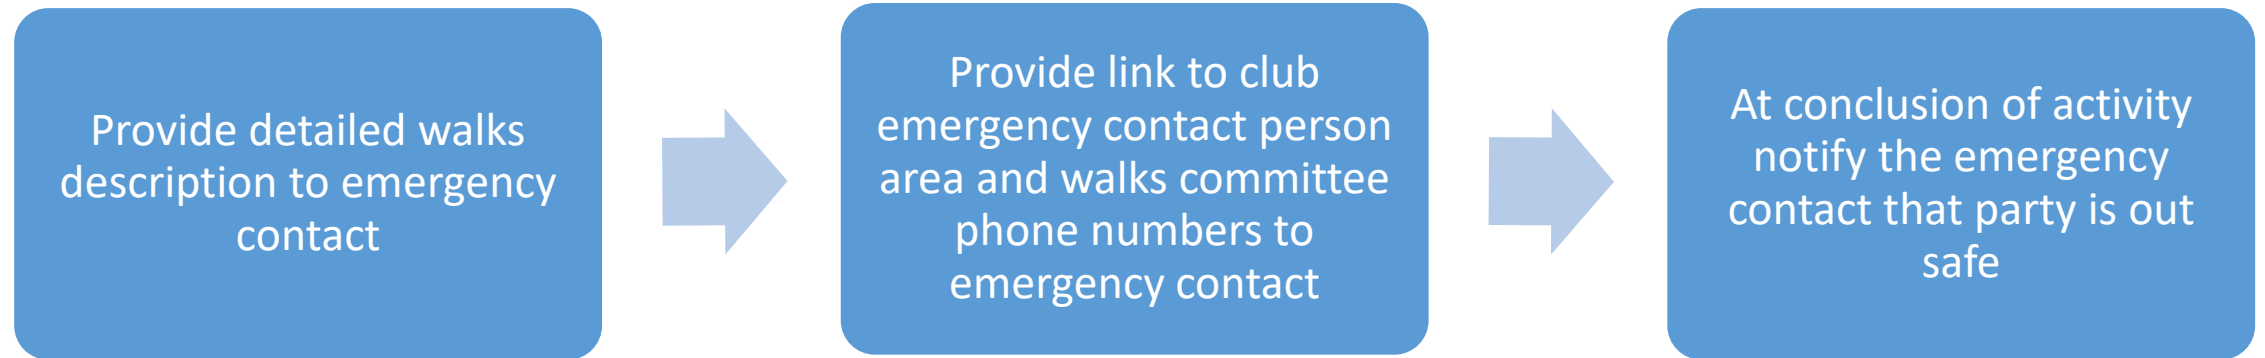

In the event of an incident or injury, the activity leader will be able to reach the relevant emergency contacts listed on the activity register by phone at the appropriate time.

*\* These guidelines do not apply to social activities*

# Activities outside of urban areas

These are activities where all or part of the activity takes place away from roads and footpaths. Mobile coverage is not reliable. Should an incident or accident occur emergency services would most likely be contacted by PLB, due to the inherent uncertainty of the ability to contact emergency services by phone.

## Assign and Inform and Emergency Contact

**Provide club with details of your emergency contact for the trip and emergency contacts for trip participants. Inform club of any incidents or injuries which happened on the activity if applicable**
